CALL FOR PAPERS!

Greetings! We would like to notify you of an upcoming symposium to recognize outstanding undergraduate students in polymer science and engineering. We ask each department (e.g., chemistry, chemical engineering, or polymer/material science) to send their best undergraduate students to speak or display a poster on his or her original research in this special symposium. We would hope that the student's advisor or the Department would be able to fund the student's travel to the meeting.

Objective

This meeting is intended to provide recognition to outstanding undergraduate students in polymer science and engineering, to foster networking and exposure, and to help develop the careers of future leaders in both academia and industry.

Awards

Best three oral and three poster presentations will receive monetary awards

Documents Needed

Student should enter the abstract and the preprint of his or her presentation to the OASys <http://oasys.acs.org>, under "Undergraduate Research in Polymer Science" by November 14, 2006 There are two separate lines on the OASys for the symposium: oral or poster. Either can be used for entry purposes. A decision will be made later as to the choice of a given paper for oral or poster presentation.
